MARK HENDRICKSON

Mark is a Product Manager at Blockstack from San Francisco with over a decade designing, developing and marketing Web and mobile applications for startups. He now lives in Barcelona in self-imposed exile having launched a number of products in Silicon Valley such as Plancast, KITE, Lift and CrunchBase.

PETE VAN VELDEN

Bring Your Own
'Some things benefit from shocks; they thrive and grow when exposed to volatility, randomness, disorder, and stressors and love adventure, risk, and uncertainty.'
Pete has been enjoying a career in IT since the days of the first Internet boom (and bust). Having a passion for blockchain and finance, his calling is to help people to truly own their digital self, their data and their assets.

JÖRN ERBGUTH

Jörn is a consultant on Blockchain, Smart Contract and GDPR. With his double diploma in law and computer science, he is especially interested in the intersection of law and technology. Besides consulting, Jörn currently does a PhD on blockchain governance at the University of Geneva, publishes on related topics and lectures at several Swiss universities. In order to raise awareness of GDPR in the Blockchain community, he has developed the Blockchain GDPR Quick Check
